Site Description

See POLREP #1 for site description and background information.

Current Activities

- 1) ERRS re-mobed to the site on July 12.
- 2) Site clearing/grubbing continues for potential excavation of contaminated soils.
- 3) Five trenches were excavated on the salt cake impoundment to allow prospective disposal vendors to examine the material and for START sampling to support future disposal profile.
- 4) Scrap metal from demolition of the main building continues to be segregated for recycling.
- 5) A roll-off containing asbestos-containing-materials was sent off for disposal.
- 6) Existing slag piles have been covered and are being evaluated for off-site recycling by prospective vendors.

Planned Removal Actions

- 1) Continue segregation and preparation for off-site transport of scrap metal.
- 2) Continue clearing for potential excavation of contaminated soils.
